VETERANS INDUSTRIES

In affiliation with Omeric
Rehabilitation Inc.

Veterans Industries is a vocational rehabilitation program that has served the community since 1968 as a nonprofit organization.

Veterans Industries generates its work from local companies on a sub-contract basis. Jobs are performed by our nation's veterans. Work ranges from packaging and assembly to jobs that require the operation of complex machines. All work is closely supervised by experienced staff.

The program has proven to be a "win-win" situation for our veterans as well as for local businesses!

- **Veterans can improve their quality of life by learning valuable work skills with opportunities to earn needed income.**
- **Companies get quality work and a cost-effective way to turn around their products!**
